Moxy Marine Services, a full service on-site marine repair business, is currently recruiting a full-time, year round Master Marine Technician with electrical, electronics and mechanical proficiency and the ability to diagnose, repair and install all onboard equipment and systems. We are seeking a professional, experienced technician that is looking for a long term career in the marine repair field with the desire and initiative to expand their knowledge and grow within our company. ABYC, NMEA and/or manufacturer certifications are required. This is a professional position that could include demanding managerial duties for the right candidate.

Requirements to be considered for this position:

- College education (or the right trade/technical school graduate will be considered)
- 5 + years of field experience as a marine technician
- Proficiency in marine electrical, electronics and mechanical systems
- Must be dependable, have a strong work ethic, take pride in your work and present yourself professionally and with integrity
- Ability to balance production with a quality end product
- Proficient in the use of Microsoft Word and Excel
- Excellent verbal communications skills:
 - provide updates to owners regarding job status, discuss problems and recommend solutions
 - communicate effectively with clients to sell jobs, regarding job status and bring profitable resolutions when issues arise
 - communicate effectively, develop a rapport and inspire loyalty with co-workers
- Excellent written communication skills:
 - write detailed write-ups
 - prepare estimates
 - prepare letters to clients for conflict resolution
- Excellent financial and analytical skills for the purpose of preparing budgets, analyzing costs, running profitability projections and laying out business plans
- The ability to work independently, complete tasks, complete tasks on time and respond well to owners' direction
- Inspect the work of others and provide constructive feedback and guidance
- Source and procure parts locally and online; maintain positive relationships with manufacturers and suppliers
- Participate in training/educational programs and maintain certifications
- Must be able to sea trial boats
- Have your own personal hand tools (we provide all specialty tools)
- Willingness to work overtime, do any menial job and be a true team player

Knowledge base must include the diagnostics, repairs and installations of these systems:

- Electrical (AC and DC)
- Electronics and Autopilots
- Satellite Communications and Satellite TV
- Audio/Visual Entertainment
- Stabilizers and Trim Tabs
- Refrigeration and Climate Control (including chiller systems)
- Sanitation and Plumbing (of all onboard water systems, including watermakers)
- Batteries and Chargers/Inverters
- Diesel and Gasoline Engines, Outboards and Gensets
- Jet Drives
- Fuel Systems
- Sail Systems

Wage/Salary: Competitive and commensurate with knowledge and experience level
\$60,000 - \$80,000 annual base earning potential

Position Type: Full time, year round position

Benefits: Available after completion of trial period

Location: Charleston, South Carolina
